

Quarterly Statistical Digest

November 2019
Volume 28, No. 4

The Statistical Digest is a quarterly publication of the Central Bank of The Bahamas, prepared by the Research Department for issue in February, May, August and November. The first issue, Volume I, No. 3 (August, 1992), replaced the former Quarterly Review which was last published for March 1992. All correspondence pertaining to the Digest should be addressed to:

The Manager
Research Department
Central Bank of The Bahamas

Nassau, Bahamas

email address: research@centralbankbahamas.com
website address: www.centralbankbahams.com

GENERAL NOTES

The following symbols and conventions are used:

- | | | |
|----|------|---------------------|
| 1. | n.a. | Not Available |
| 2. | p | Provisional Data |
| 3. | -- | Nil |
| 4. | B\$ | Bahamian Dollars |
| 5. | F/C | Foreign Currency |
| 6. | * | See notes to tables |
| 7. | YTD | Year to date |
| 8. | ... | Not Specified |
| 9. | R | Revised Data |

Users should note that:

- a. Data in tables are subject to periodic revisions as more updated information becomes available.
- b. Due to rounding, the sum of separate items may differ from the totals shown.

Acknowledgement

The Central Bank of The Bahamas wishes to express its appreciation for the assistance received from the Ministry of Finance, the Ministry of Agriculture, the Ministry of Tourism, Commercial Banks, Other Local Financial Institutions, the Public Corporations, the Department of Statistics, and other government and private sector agencies in the compilation of the data.

NOTES TO TABLES

SECTION 1 MONETARY AUTHORITY

Table 1.1 Central Bank of The Bahamas: Assets

Balances With Foreign Banks: are deposits of the Central Bank held with foreign banks.

Foreign Securities: are holdings of short and long term debt instruments of foreign governments and supranational organizations which are reported at cost.

IMF Reserve Tranche: represents that part of The Bahamas' quota in the IMF which must be paid up in SDRs. Fluctuations may reflect valuation changes.

Special Drawing Rights (SDRs): are the unused portion of SDRs allocated by the IMF to its members in proportion to their quota. Members are free to convert these amounts into other currencies or they may hold them as part of their reserves.

Claims on Central Government: comprise holdings of the Central Government's treasury bills, bonds and advances from the Central Bank. These are recorded at cost.

According to The Central Bank of The Bahamas Act, the Bank's advances to the Government cannot exceed ten percent of the Government's average ordinary revenue or ten percent of the estimated ordinary revenue, whichever is less. The average ordinary revenue is the annual average of the ordinary revenue over the last three years for which audited accounts of revenue and expenditure of the Government have been laid before Parliament.

Table 1.2 Central Bank of The Bahamas: Liabilities

Currency in Circulation: is the total value of Bahamian dollar notes and coins issued to the public which are the liabilities of the Central Bank.

Demand Liabilities to Bankers: comprise the balances for commercial banks and other local financial institutions, part of which is held to satisfy the statutory reserve requirements vis-à-vis Bahamian dollar deposit liabilities and to facilitate cheque clearing requirements. These deposits are non interest bearing.

Deposit Liabilities to Others: include total balances held for the public corporations and international organizations such as the IMF.

Table 1.4 Central Bank of The Bahamas: Notes in Circulation

Sterling notes: were in circulation prior to the issuance of the Bahamian dollar in 1967. These are still redeemable at a rate of B£1 = B\$2.85714.

Table 1.5 Central Bank of The Bahamas: Coins in Circulation

Gold Coins: in circulation were placed into general circulation in the late 1960s by way of commercial banks and coin dealers. These are redeemable at face value.

SECTION 2 BANKING SYSTEM

As at February 2019, a Summary of the Assets and Liabilities of the All Public Banks &/or Trust Companies is presented in Tables 2.1 and 2.2; while Tables 2.3 and 2.4 provide a Summary of the Assets and Liabilities of International Banks.

International Banks: These are banks &/or trust companies domiciled in The Bahamas, licensed by the Central Bank, and designated as non-resident for Exchange Control purposes.

SFIs: Supervised Financial Institutions

Also, in February 2019, the Commercial Banks and the Other Local Financial Institutions' (OLFIs) data sets which were combined in November, 2005 and was reported as the Banking System has changed to being reported as Domestic Banks.

Table 2.5 Financial Survey

This table is compiled from the combined balance sheets of the Central Bank, commercial banks, and other local financial institutions. Data coverage is in respect of all resident transactions, i.e., both Bahamian dollar and foreign currency transactions.

Net Foreign Assets: are foreign assets held by the banking system and the Central Bank less short term foreign liabilities of the banking system.

Domestic Credit to Government (net): is all claims on Central Government net of deposit liabilities held for Government.

Domestic Credit to Rest of Public Sector: represents all claims on public non-financial corporations and public financial institutions.

Currency in Active Circulation: is Bahamian dollar currency in the hands of the public i.e., the total currency liabilities of the Central Bank less banks' till cash and gold coins and sterling notes.

Demand Deposits for Commercial Banks and Other Local Financial Institutions: are adjusted to exclude nonresident demand deposits which are included in the net foreign assets positions of banks. Government's demand deposits are also excluded from the total.

Central Bank Demand Deposits: only include balances owing to the public corporations. Deposits of international agencies are included in other items (net).

Savings and Fixed Deposits: exclude amounts held to the account of nonresidents. It should also be noted that all deposits are adjusted for foreign currency balances which are included in the calculation of quasi money.

Foreign Currency Deposits: comprise all foreign currency deposits (demand, savings and fixed) of residents.

Other Items (net): include non-monetary liabilities less the non-monetary assets of the Central Bank and banks. The capital and reserves positions are a component of this category.

As at 1984, unearned interest is excluded from private sector credit and is included in other items (net).

Table 2.8 Factors Affecting Money Supply

This table is based on the Financial Survey, as it includes data for Central Bank, commercial banks and other local financial institutions. Brackets denote a contractionary impact on Money Supply (M1).

Table 2.9 Domestic Banks: Summary of Domestic Assets

Till Cash: is holdings of Bahamian dollar notes and coins in vault.

Treasury Bills: are recorded at cost.

Balance with Central Bank: See notes to Table 1.2.

Other Assets: include fixed assets such as land and building, furniture and other miscellaneous assets in Bahamian dollars only.

Table 2.10 Domestic Banks: Summary of Domestic Liabilities

Resident Deposits: include balances in both Bahamian dollars and foreign currency.

Other Demand, Savings and Fixed Deposits: include accounts of individuals, companies and public corporations. Also included are any demand and fixed deposits held for Central Government.

Due to Central Bank: represents Central Bank advances to and Bahamian dollar deposits held with commercial banks.

Capital and Surplus Accounts: include only paid-up capital, reserves, provisions and profit and loss accounts in Bahamian dollars.

Other Liabilities: include bills payable in The Bahamas, debentures issued in The Bahamas and other miscellaneous liabilities in Bahamian dollars.

Net Foreign Assets: are derived by netting out total domestic assets (in Bahamian dollars and foreign currencies) against total domestic liabilities (Bahamian dollars and foreign currencies). A negative figure, showing an excess of liabilities over assets, represents an inflow of foreign capital into the economy to finance a portion of the banks' domestic assets.

Table 2.11 Domestic Banks: Summary of Foreign Assets

Table 2.12 Domestic Banks: Summary of Foreign Liabilities

Included in external assets and liabilities are both Bahamian dollar and foreign currency claims on and liabilities due to the nonresident financial and nonfinancial sectors.

The significant decline in commercial banks claims on offshore financial institutions in 1989 reflects the departure of a bank from the system.

As at November 2006, the tables reflect a consolidation of the commercial banks and OLFIs data.

Table 2.13 Bank Deposits by Depositors (All Currencies)

Amounts represent non-financial deposits of the commercial banks and the other local financial institutions only. Collection of this data series, according to the existing seven categories,

commenced in 1982 for the commercial banks and in 1988 for the other local financial institutions.

Other: includes deposits of charitable and non-profit organizations and pension funds.

Table 2.19 Domestic Banks: Overdrafts and Loans by Maturity

See notes to Table 2.20.

Table 2.20 Distribution of Bank Credit: All Currencies

Loans and advances are classified according to the main economic activity of the borrower. The report form for loans and advances was revised with effect from January 1982 in accordance with the U.N. International Standard Industrial Classification. Modifications were made to highlight certain sectors and to maintain conformity with the previous data set. There are now fifteen categories compared with the previous eight, with the miscellaneous, tourism, manufacturing, and agriculture sectors as separate categories.

There is a break in the series on loans and advances to building and construction, real estate, the personal and miscellaneous categories and quarrying and manufacturing owing to numerous reclassifications that were made to ensure consistency between the past and existing series.

The totals on these tables differ from those on the banks' balance sheets due to the inclusion of unearned interest in the former. As at October 1994, unearned interest is no longer calculated for loans granted by banks.

Table 2.23 Domestic Banks: Summary of Consumer Installment Credit

These loans are of a personal nature and are repaid on an installment basis. The category home improvement includes land purchases for the years 1982-1987, and miscellaneous, commercial bank credit card debt. Also, see notes to Table 4.2.

Beginning October 1994, banks have disaggregated loans previously granted on a demand basis from 'add-on' loans. These amounts were also new consumer loans granted subsequent to the directive of the Central Bank's guideline that all loans, after October 1, 1994, be extended using the simple interest method of interest calculation.

Demand and add-on loans which were previously reported separately has as of August 2006 been combined to provide more concise information on consumer lending for various categories.

Table 2.27 Domestic Banks: Summary of Bank Liquidity

A. Primary Reserves

Under Section 19 of The Central Bank of The Bahamas Act 2000, banks are required to maintain a reserve called a 'Statutory Reserve' against their Bahamian dollar deposit liabilities. Since coming into effect in June, 1974, the ratio has been unchanged at 5%; however, the Bank has the power to raise the ratio up to 20%. The determination of required reserves is based on the average of the weekly positions of Bahamian dollar deposit liabilities for four preceding weeks prior to the month for which the statutory reserves are applicable. Section 20(5) of The Act provides for a fine to be applied not exceeding twice the annual discount rate for every day that a deficit occurs.

Required Deposit Balance: is derived from the required reserves less the average till cash or 1% of average deposits, whichever is smaller. The balance is computed using the average deposits of banks for the week-ending Wednesday during the month.

Average Till Cash: is the average of banks' Bahamian dollar cash in vault and is calculated using the average of the previous month-end figures. The data are obtained from the monthly balance sheets of the banks.

Average Balance with the Central Bank: is the average of the daily balances for the month.

B. Liquid Assets

Under Section 20 of The Central Bank of The Bahamas Act, all banks are required to maintain an average ratio of liquid assets in relation to their Bahamian dollar deposit liabilities, taking one calendar month with another. For the purposes of calculation, weekly positions as reported for the week ending Wednesday are averaged to arrive at the position for a calendar month. Section 20 (5) of the Act also provides for a fine not exceeding twice the annual discount rate for every day that a deficit occurs.

Minimum Required Liquid Assets: represent 20% of the banks demand deposits, 15% of savings and fixed deposits and 15% of borrowings due to/from the central bank and inter bank.

Eligible Liquid Assets: include notes and coins, government securities, and other specified assets.

Notes and Coins: are the total Bahamian dollar cash held by the banks and up to \$250,000 in foreign currency cash.

Government Registered Stocks: include Bahamian dollar registered stock, foreign currency stock for the years 1979-1981.

Specified Assets: are those which can be statutorily prescribed by the Central Bank and currently comprise Government guaranteed low cost housing loans and public financial institutions bonds.

Net Interbank Demand/Call Deposit: is the net of demand/call deposit placements between commercial banks and the other local financial institutions.

Table 2.28 Profit and Loss Accounts of Banks in The Bahamas

This table presents data on domestic banks (Commercial Banks and Savings & Loans) profit and loss in respect of **resident** transactions only (i.e., all Bahamian dollar and foreign currency operations of residents). It excludes those banks which are principally offshore in nature, although designated as Authorized Agents. In several instances, fluctuations in the data set for Commercial Banks and Savings & Loans reflect reclassification of banks from the former category to the latter.

Savings and Loans: are a subset of Other Local Financial Institutions (OLFIs) and include institutions which deal only in **resident** Bahamian dollar transactions. See notes to Table 2.34.

Commercial Banks: See notes to Table 2.34.

The collecting of profitability data commenced with annual surveys for the years 1985-1989 and 1992. Quarterly reporting was instituted beginning first quarter 1993. Although presented using the standard quarters, the data reflect fiscal quarter-ends of individual institutions; the Canadian institutions are on the April, July, October and January quarter-end system.

Average Domestic Assets: represent balance sheet totals of Bahamian Dollar and foreign currency claims on residents, averaged for the respective quarterly/annual period.

Return on Assets Ratio: is calculated by taking the ratio of net income to average domestic assets. It measures a bank's efficiency in utilizing assets to generate profits.

Net Interest Margin: represents the difference between a bank's interest income and interest expense. A measure of net interest income divided by average level of interest earnings assets indicates how well a bank is able to acquire funds and reinvest them.

Gross Earnings Margin: represents the net interest margin in addition to income received from foreign exchange transactions and other commission sales.

Net Income: represents the difference between gross income and gross expense.

Effective Bahamian Dollar Interest Rate Spread: measures the difference between the interest yield on average loans and interest cost on deposit liabilities.

Table 2.29 Domestic Banks: Credit Card Activity

Table shows quarterly data on credit card facilities extended by commercial banks to their clients, inclusive of the number and value of credit card debt outstanding by limits granted, cash advances, purchases and payments.

Table 2.30 Domestic Banks: Credit Quality Indicators

Table shows monthly credit quality indicators of the private sector inclusive of key ratios.

Arrears (31 days and over): represents accounts for which loan payments are past due for 31 days or more.

Arrears (31 days – 90 days) : represents accounts for which loans payments are past due for more than 31 days but less than 90 days.

Non-performing loans: represents accounts for which loan payments are more than 90 days past due.

Provisions: amounts set aside for bad debts.

Table 2.31 Domestic Banks: Foreign Exchange Transactions

Table shows foreign exchange purchases and sales between commercial banks, the public and the Central Bank.

Table 2.32 Domestic Banks: Clearings

Table shows data on the total monthly cheques exchanged between banks in the Clearing Banks Association each month.

Table 2.33 Real Time Gross Settlement (RTGS) Transactions

The RTGS system was implemented in May 2004, to enable all clearing banks to settle Bahamian dollar payments electronically, on a transaction-by-transaction basis in real time – among each other and the Central Bank of The Bahamas.

Customer Payments: payments made by clearing banks on behalf of their customers.

Interbank Payments - Gross Settlements: total payments made by clearing banks among themselves.

Interbank Payments - Retail Cheque Clearing (net): net settlement of retail cheques conducted via the Central Bank of The Bahamas.

Interbank Payments – Central Bank: transfers made from one bank to another via the Central Bank of The Bahamas upon instruction from the bank.

Other Credits: Central Bank transfers to clearing banks on behalf of its customers.

Other Debits: Debits made by Central Bank to its customers' accounts.

Table 2.34 Banks and Trust Companies Licensed in The Bahamas

Table shows the total number of banks and trust companies licenced in The Bahamas along with data on revoked licences. The definitions of 'bank and trust companies' licences are outlined below.

Authorized Dealer: is a bank which has been authorized by the Central Bank to deal in gold and all foreign currencies, and for this purpose can open and maintain accounts in such currencies within the limits laid down in Exchange Control Notices issued by the Bank. Under authority delegated by the Central Bank, an authorized dealer can approve certain applications for foreign currency within specified limits.

Authorized Agent: is a bank or trust company authorized by the Central Bank to deal in Bahamian and foreign securities and to receive securities into deposit (i.e. to act as custodian) in accordance with the terms of Exchange Control Regulations Act, 1965 and Exchange Control Notices issued by the Bank.

Public Licensee: is an entity permitted to carry on banking and/or trust business with members of the public. The institution's exchange control designation determines whether the licensee is 'resident' or 'nonresident'

Resident: status allows a bank or trust company to deal only in Bahamian dollars and all operations in foreign currencies require Exchange Control's authorization. Trust companies with resident status are allowed to deal in foreign securities on behalf of nonresident customers.

Nonresident: designation permits a bank and/or trust company to operate freely in foreign currencies, however, Exchange Control approval is necessary to operate a Bahamian dollar account to pay local expenses.

Restricted: banks and/or trust companies carry on business for certain specified persons which are usually named in the licence.

Nonactive: companies are those which are either in voluntary liquidation or wish to keep the word bank or trust in the company's name even though they are not carrying on any banking or trust business.

Nominee: companies are those which hold securities and other assets in their name on behalf of clients of parent bank and trust company.

Commercial Banks: are deposit money banks operating demand, savings and fixed deposits and making loans through a number of branches. These banks also provide services for the exchange of foreign currency. At end-September, 2012, the following banks were classified as commercial banks: Bank of The Bahamas Ltd., Citibank, N.A., Commonwealth Bank Ltd., Fidelity Bank (Bahamas) Ltd, Finance Corporation of Bahamas Ltd., FirstCaribbean

International Bank (Bahamas) Limited, RBC Royal Bank Bahamas Ltd. and Scotiabank (Bahamas) Limited.

Other Local Financial Institutions: are primarily banks and trusts which opt to deal mainly with non-residents and savings and loans institutions which deal only in Bahamian dollars. At end-December, 2017 the domestic OLFIs comprised the following: Ansbacher (Bahamas) Limited, Bank of Nova Scotia Trust Co. (Bahamas) Ltd., Butterfield Trust (Bahamas) Ltd., CIBC Trust Co. (Bahamas) Ltd., Cititrust (Bahamas) Limited, J.P. Morgan Trust Co. (Bahamas) Ltd., Royal Bank of Canada Trust Co. (Bahamas) Ltd., Royal Fidelity Merchant Bank & Trust Ltd., Deltec Bank & Trust Ltd., and Corner Bank (Overseas) Ltd.

Consolidated data for the Banking System is reported all currencies, except where separated into Bahamian dollar and foreign currency for Notes & Coins, Loans & Advances and Customer Deposits. Please see also notes to Tables 2.9, 2.10, 2.11 and 2.12.

SECTION 3 OTHER FINANCIAL INSTITUTIONS

Table 3.3 Bahamas Development Bank: Assets

Due from Commercial Banks: Bahamian dollar balances held as demand and fixed deposits in the local commercial banks.

Other Assets: include fixed assets such as land and building, and other miscellaneous assets in Bahamian dollars only.

Table 3.4 Bahamas Development Bank: Liabilities

Due to National Insurance Board: represents the National Insurance Board's advances to and Bahamian dollar deposits held with Bahamas Development Bank.

Due to Central Bank: represents Central Bank advances to and Bahamian dollar deposits held with Bahamas Development Bank.

Due to Caribbean Development Bank: represents the Caribbean Development Bank advances to and Bahamian dollar deposits held with Bahamas Development Bank.

Due to Other Financial Institutions Outside The Bahamas: represents Other Financial Institutions advances to and Bahamian dollar deposits held with Bahamas Development Bank. These institutions are located outside the Bahamas.

Capital and Surplus Accounts: include only paid-up capital, reserves, provisions and profit and loss accounts in Bahamian dollars.

Other Liabilities: include bills payable in The Bahamas, debentures issued in The Bahamas and other miscellaneous liabilities in Bahamian dollars.

Table 3.5 Bahamas Development Bank: Sectoral Distribution of Credit

Loans are classified in accordance with the U.N. International Standard Industrial Classification. There are eight categories of loans for the broad based lending of the bank. These include loans for agriculture, fisheries, manufacturing, transportation, tourism and other industries.

Table 3.6 Selected Data for the Bahamas International Stock Exchange

This data is collected on a daily basis from The Bahamas International Securities Exchange (BISX), and has been consolidated for this table. The value is comprised of the volume of shares multiplied by their respective prices, and are then aggregated. The index value for the The Bahamas (BISX) excludes debt securities and is reported as at end of period.

Table 3.7 Comparative Equity Market Valuations

This data is collected from the various stock exchange websites of all countries represented, as well as from Bloomberg. All market valuations, with the exception of the United Kingdom's FTSE 100, are calculated with a weighted average market capitalization, comprised of all outstanding shares. The index value for the The Bahamas (BISX) excludes debt securities.

SECTION 4 INTEREST RATES

Table 4.1 Selected Interest Rates

Bank Rate: is the interest rate at which banks borrow from the Central Bank.

Average Tender Rate (ATR): is the rate determined during a tender by dividing the principal (amount actually paid for bills) by the amount on offer.

Average Treasury Bill Discount Rate (ADR): represents the annual yield to the investor or cost to the Government. It is calculated on the basis of the following formula: $ADR = 100 \% \text{ less } ATR \times 4$.

Table 4.2 Loan Rates of the Banking System

Data for the years 1982 through 1984 are average rates; however, as of January 1985, a range is given for lending rates. Average rates calculations were resumed in 1996. The weighted average rate of interest is calculated using total loans and advances.

Beginning October 1, 1994, the Central Bank directed banks to discontinue utilizing the add-on rate method for calculating interest rates on consumer loans, and instead stipulated that the simple interest rate method be used.

Table 4.3 Deposit Rates of the Banking System

For the years 1982 through 1984, the respective rates shown represent the average rates offered by commercial banks and the Other Local Financial Institutions on their deposit liabilities. As of January 1985, the data represent ranges.

Average rates calculations were resumed in 1996. The weighted average rate of interest is calculated using total deposits.

Table 4.4 Comparative Treasury Bill Rates and Bank Rates

Treasury bill rates for the United Kingdom, United States and Canada are the average discount rates on three-month Treasury Bills at the last tender in each month. The rates for The Bahamas, Barbados, Jamaica and Trinidad and Tobago are the average rates quoted on the

date of issue of three-month bills for the appropriate month. The distinction arises because in the former case there are several tenders per month whereas for CARICOM territories and The Bahamas there is usually only one tender.

Bank rates (minimum lending rate in the case of the United Kingdom) are those obtaining at the end of the month. The lending rate for Jamaica represents the Certificate of Deposit rate for 1989-1996; thereafter the rate reflects the 30 day reverse repurchase rate.

SECTION 5 GOVERNMENT FINANCE

The Government Finance Statistics are compiled from quarterly Public Treasury accounts and Central Bank records. Beginning July 1, 2018, the Government introduced a new chart of accounts (CoA) in preparation for future conversion of the accounting presentation to International Public Sector Accounting Standards (IPSAS) accrual basis. This new CoA also assisted in the initial attempt to present the data in the International Monetary Fund's (IMF's) GFSM2014 methodology. A back series for the period FY2009/10 – FY2017/18 was also compiled. The November 2019 QSD marks the first appearance of the new GFSM2014 tables. All data prior to FY2009/10 were compiled under the IMF's 1986GFSM methodology (please see notes in earlier publications that relate to same).

The current expenditure and financing totals may differ slightly from those found in the Government's audited accounts, as capitalized debt service payments are included in Central Bank's data, while excluded from the audited accounts (which are prepared using a modified cash basis and guided by IPSAS cash basis).

Pending the completion of audited accounts, the annual data should be regarded as very provisional and may change between reporting periods to reflect revised positions.

Table 5.1 Central Government: Statement of Operations

Surplus/(Deficit): is calculated by subtracting total expenditure from revenue.

Financing Activities show how the deficit was financed or surplus allocated and include:

Net Acquisition of Financial Assets: comprises transactions that affect the value of financial assets on the balance sheet during the reporting period.

Internal Borrowing: comprises loans and advances from resident sources in all currencies extended during the reporting period. Decreases in outstanding Treasury Bills & Treasury Notes are shown as a negative item.

External Borrowing: comprises borrowing from nonresident sources in all currencies.

Debt Repayment: comprises amortization of all debt items except Treasury Bills. In accordance with the IMF's methodology, debt repayment is not considered to be an expenditure but a negative financing item.

Changes in Short-term advances: shows the increases and decreases in Government's short-term obligations to the banking system, excluding the Central Bank.

Cash Balance Change: shows the increase or decrease in Government's deposits with the domestic banking system.

Other Financing: reflects the net of changes in float of cheques outstanding and a residual financing item.

Table 5.2 Central Government: Revenue

Tax Revenue

Taxes on Use of/Permission to Use Goods – License to Conduct Specific Business Activities; includes business license fees, communication levies and other business related fees. Insurance gross premiums and fees are excluded effective FY11/12.

General Stamp Taxes: include stamp tax on dividends/profits, judicial stamp duty, company charter/capital adjustment, post office, gaming and other stamp taxes.

Non tax Revenue

Property Income – Revenue Gov’t Property: include rents from AUTEK agreement, seabed lease, and other lease and royalty payments.

Sales of Goods & Services – Fees and Service Charges: Includes immigration related, motor vehicle inspection, driver’s license, customs processing and other fees.

SECTION 6 PUBLIC DEBT

All data are in respect of disbursed debt only.

Table 6.1 Central Government: National Debt

Direct Charge: is that amount which is direct claim on Central Government by foreign and local holders of the Public Debt.

External Debt: comprises that portion of the debt owed to nonresidents in foreign currencies.

Internal Debt: comprises debt owed to residents in foreign currencies and Bahamian dollars.

Total Foreign Currency Debt: includes all external and foreign currency internal debt.

Contingent Liabilities: are both Bahamian and foreign currency claims on the public corporations guaranteed by Government. As such, these are potential liabilities to Central Government in the event of a default.

Total Government Overdrafts is a memorandum item reported as at the end of the period.

Table 6.2 Central Government: Treasury Bills

Treasury bills are compiled from the results of the monthly tenders conducted by the Central Bank and are reported at face value. Amounts differ from those shown in banks' balance sheets and where they are reported at cost.

The statutory ceiling on Treasury Bills which may be outstanding was increased in December 1990 to 25% from 20%. This is computed on the basis of government's average ordinary revenue for the most recent three years.

Table 6.3 Central Government: Long-term Securities

Table 6.4 Central Government: Long-term Securities by Maturity

Beginning in April 1992, data also include holdings of bonds issued under the Development Bond Act, 1990 together with the traditional registered stocks issued under the Registered Stock Act 1973. From December 2014, data also include Bahamas Government Stock, issued by broker dealers under the Financial Administration and Audit (Amendment) Bill 2012.

Table 6.5 Public Corporations: Debt Operations

In some cases, the data may differ slightly from that published in the audited accounts of the public corporations. The foreign currency loan balances shown in the audited accounts are usually adjusted to reflect year-end exchange rate values.

Table 6.6 Public Sector: Foreign Currency Debt Operations

This table shows the changes in the foreign currency debt of Government and public corporations.

Debt Service Ratio: is calculated as total foreign currency debt service as a percentage of exports of goods and non-factor services.

Table 6.8 Public Sector: Debt & Debt Service Indicators

External Debt Service is also included in the foreign currency debt service data.

Exports: exports of goods and non-factor services.

SECTION 7 INTERNATIONAL TRADE AND PAYMENTS

Table 7.1 Balance of Payments

The table format is based on the IMF's standard format for reporting balance of payments statistics. The information on oil trade is supplied by oil companies and is desegregated into oil imported for domestic consumption and that for bunkering of foreign ships and aircraft. Oil that is imported for trans-shipment or refining and subsequently re-exported is excluded from the trade account since no change of ownership occurs.

Interest, Dividends and Profits: data for banks exclude transactions relative to offshore activities.

Import and Export: data differ from those published by the Department of Statistics owing, inter alia, to some erratic movement in the series compiled by this department. For the years 1978-1987:3, the Central Bank's estimates for imports were based on import duties to which a multiplier of 3.75 was applied.

Since 1987:4 - 1989, imports have been compiled as a percentage of tourism expenditure. Exports have been estimated from the data supplied by offshore exporting companies and applying a multiplier of 2.22.

Thereafter, the Bank has reverted to using imports and exports data from the Department of Statistics. In the absence of timely data, the Bank estimates exports from previous years' information and imports are obtained from The Bahamas Customs Department.

Travel: debit is based on Exchange Control approvals for purchases of foreign currency.

For a detailed exposition of the components of the table, please see the article, 'An overview of Bahamas Balance of Payments 1973-1979', Quarterly Review, March 1977.

The non-oil imports data for 1985 have been revised upwards to reflect the impact of the sharp upward adjustment in tourist expenditure, as reported by the Ministry of Tourism. The revisions by the ministry reflect the new methodology employed in calculating tourist expenditure by using an average per visit measurement instead of a per diem concept. The adjustments to non-oil imports were designed to maintain the historical relationship which exists between tourism receipts and imports. Accordingly, the freight and insurance data were also revised.

Table 7.2 External Trade

Other Merchandise Imports: exclude bullion and specie and include parcel mail, insurance and freight.

Table 7.3 Export by Commodity Group

Exports: are reported f.o.b., i.e. the value includes the expenses up to the time of delivery on board the exporting carrier, and any related export duties. Although not shown separately, exports consist of domestic exports and re-exports. The former is comprised of domestic goods exported directly and imports which have been transformed in The Bahamas. The latter consists of foreign goods re-exported without transformation.

The low figure of \$339,000, which represents exports 'beverages and tobacco' for the fourth quarter 1977 is due to the non-processing of a number of customs entry forms during that period.

The differences between the annual and quarterly series through 1984 are due to the lack of the relevant breakdowns for the quarters.

Where the annual and quarterly totals differ, the annual figure should be used. Adjustments to the quarters are not available.

The commodity classification used is The Standard International Trade Classification.

Table 7.4 Imports by Commodity Group

Imports: are reported c.i.f., i.e., the value includes the cost of imports, freight and insurance and any other expenses relating to the delivery at the port.

Table 7.5 Non-oil Exports by Country and Region

Table 7.6 Non-oil Imports by Country and Region

The quarterly totals for 1976-1984 differ from the respective annual totals because adjustments were only made to the annual data.

Table 7.7 Composition of Domestic Exports

Table shows those products which are produced locally and exported.

SECTION 8 GENERAL STATISTICS

Table 8.1 Retail Price Index: Average for the Period

The arithmetic average is used. These tables begin a new series based on the revised retail price index as prepared by the Department of Statistics in 1987. The revised index includes an expansion in the number of categories to nine from the previous seven categories.

Table 8.3 Comparative Retail Price Index

In the case of The Bahamas, the quarterly and annual comparisons are calculated using the Average Retail Price Index for New Providence. These figures have been rebased to Oct/Nov 1990 = 100 **and Oct/Nov 1995 = 100**). The monthly index changes are based on the actual Retail Price Index and have been likewise rebased to 1985.

Table 8.4 Tourism: Selected Statistics

Average Length of Stay: is derived from the immigration cards which recorded the intended length of stay. The average length of stay is reported in days which is derived by adding 0.5 to the average length of stay (nights).

Since 1977, excursionists (one day visitors) have been excluded from stopover visitors.

Stopover: is a visitor who stays in excess of 24 hours and requires accommodations.

Table 8.5 Tourism: Estimates of Visitor Expenditure

Average Expenditure Per Visit: is based on information received on The Ministry of Tourism's exit surveys. This figure is then expressed in 1987 dollars by using the formula: Average Expenditure Per Visit ÷ [(current year average price index) × (1987 average price index)]

Total visitor expenditure: is inclusive of spending by day visitors.

**Table 8.6 Construction
thru 8.11**

Since 1975, the data for the 'Rest of Grand Bahama' were classified with Freeport to provide a complete picture for Grand Bahama.

Starts and completions: Only include data for New Providence and Grand Bahama.

Table 8.12 Residential Mortgage Commitments: No. and Value

Table is based on information received from banks, insurance companies and the Bahamas Mortgage Corporation. The data refer to the number and value of loans committed during the reporting period only. In 1986: Qtr. IV, the reporting format was revised to standardize reporting procedures across institutions. Based on this new format data were published beginning 1987: Qtr. IV.

Row: buildings refer to owner-occupied property consisting of no more than four units.

Table 8.13 Commercial Mortgage Commitments: No. and Value

See notes to Table 8.12.

Commercial Mortgage Loan Commitments: are those for non-owner occupied single dwellings, duplex and row; owner occupied apartments exceeding four units; new and existing structures, and rehabilitation and additions for commercial use.

Table 8.16 Commercial and Residential Mortgages: Selected Indicators

See notes to Table 8.12.

Average Loan Value/Cash Ratio: is calculated for new and existing single dwellings only and is the percentage of the loan value financed divided by the total cost of the structure.

Table 8.17 Generation and Sale of Electricity

Data since 1978 cover all Bahamas, with the exception of street lighting.

Table 8.18 Selected Economic Indicators

Bank Credit (All Currencies): comprises banks holdings of treasury bills, government securities, other local securities and loans and advances to Government, rest of public sector and the private sector.

Bank Deposits (All Currencies): comprises the deposits held by residents including Government, rest of public sector and banks.

Beginning with third quarter 1993, data on Government Revenue and Expenditure reflect the changes in the commencement of the Fiscal Year to July 1. Therefore third quarter represents the initial quarter of Fiscal Year 1993/94.
