Exuma Wildlife

\$10
Fine Silver (.9999 pure)
Proof (with colour)
31.1 g
39 mm
Plain
500 coins worldwide

When it was established in 1958, the Exuma Cays Land and Sea Park was the first park of its kind. Today it is home to brilliant coral reefs, exotic marine life and a number of protected species like the critically endangered Bahamian iguana. The pristine 112,640-acre marine environment offers outstanding anchorages within the Exuma archipelago—a favorite among explorers, naturalists, and researchers. The archipelago itself includes 365 cays and islands divided into the Great Exuma, Little Exuma and Exuma Cays. Each offers its own unique Bahamian experience.

Celebrate the heritage of the Exumas.

A veritable treasure trove of native wildlife.

At authorized coin dealers starting April 3, 2017.
