

Exchange Control Liberalisation – Foreign Currency Financing Survey

The Central Bank of The Bahamas is embarking on another phase in development of Exchange Control Liberalisation proposals, with specific objectives for further, targeted relaxation of capital account transactions. The Bank is exploring frameworks for Bahamian-owned businesses to attract non-Bahamian dollar denominated direct financing.

The Central Bank of The Bahamas is aware, anecdotally, of concerns expressed by businesses over access to financing would like to obtain a more concrete understanding of the experiences of local firms. Firms that wish to participate in the follow link below and submit their responses by 5:00 p.m. on Monday, 21 November 2016.
