\$10  
Fine Silver (.9999 pure)  
Proof (with colour)  
31.1 g  
39 mm  
Plain  
1,000 coins worldwide

The name Bahamas is derived from the Spanish baja mar (which means shallow water) and spans over 100,000 square miles of ocean. The island of New Providence, which houses the capital city of Nassau, is home to the Houses of Parliament. The Bahamas is one of very few places in the world distinguishable from space because of the clarity and beauty of the waters surrounding its shallow islands.

**Celebrate the beauty of  
The Islands Of The Bahamas.  
The gem surrounded by  
turquoise sea.**

**At authorized coin dealers starting  
February 2015**
