

The Central Bank of The Bahamas is saddened by the devastation, displacement, and loss of life as a result of Hurricane Dorian. The Bank is committed to supporting both the spiritual and financial recovery of the country and will make a donation of \$250,000 to hurricane relief efforts. The Bank will also match financial donations made by its employees.

The Bank looks forward to a similar spirit of generosity from the rest of the financial community.

The Governor, Board of Directors and staff of the Central Bank of The Bahamas continue to pray for the comfort and relief of all persons and families throughout our archipelago touched by this storm.
